Description

DON'T MISS THIS RARE OPPORTUNITY FOR FAMILIES!

Step inside your new home at Vlagtweddestraat 29 in Tilburg — a modern, beautifully maintained family house with energy label A, plenty of space and a warm, comfortable vibe. Book your viewing today before it's gone.

Ground Floor

The hallway features an attractive tiled floor that creates a sense of atmosphere and luxury. In the hall, you will find the meter cupboard, a closet containing the heating unit, and the staircase to the first floor.

The toilet, equipped with a wall-mounted WC and a small basin, is also accessible from the hall.

The garden-facing living room, with floor-to-ceiling windows, offers plenty of flexibility for arranging both a seating and dining area.

Under the stairs is a practical storage space, accessible from the living room through a door.

At the front of the house is the open kitchen, overlooking the quiet street and the abundant greenery opposite.

The kitchen consists of two timeless wall units, one of which includes the oven. Along the longer wall you will find the sink area, ceramic hob, and stainless steel extractor hood.

First Floor

At the rear of the house are two bedrooms, including the master bedroom.

This master bedroom offers ample space for wardrobes and a large double bed.

The other bedroom is ideal as a children's room or, for example, as a home office.

A third bedroom is located at the front and is also generously sized.

The light, neutral colour schemes of the bedrooms create a good base for furnishing and styling the rooms to your own taste.

The spacious bathroom is also located at the front, with three large windows overlooking the tall trees across the street. While showering, you can enjoy the view. The rest of this comfortable bathroom is equipped with a nice bathtub, a second toilet, a separate shower and a practical washbasin unit.

Second Floor

The second floor offers an impressive amount of space! A fixed staircase leads to a large separate bedroom with a spacious dormer window at the rear. The landing provides additional space and storage across the full width of the house, neatly concealed behind a panel.

Garden

In the front garden, just like the neighbours, there is a low beech hedge that requires little maintenance. The largely paved back garden is designed with large concrete tiles, lawn, and wooden fencing. At the back of the garden, you will find the (bicycle) storage shed and an extra-wide gate (120 cm) that leads to the alley.
