Schedule a viewing today and discover your new home in Rijen!

MODERN, ENERGY-EFFICIENT & PERFECT FOR FAMILIES

Welcome to Zaaren 218 in Rijen – a surprisingly spacious and energy-efficient family home with energy label C, located in a child-friendly and green neighborhood. This house stands out on the street, partly because of its private driveway, meaning you'll always have your own parking space. Almost the entire house is fitted with roller shutters, even the large dormer window in the attic. Here you'll live not only comfortably, but also sustainably and centrally.

THE LAYOUT: A HOUSE THAT FLOWS

GROUND FLOOR – BRIGHT, SPACIOUS, AND PRACTICAL

Upon entering, you step into a spacious entrance hall with access to the living room. From the living room, you enter the hall with stairs and the toilet. The bright living room immediately makes you feel at home. At the front, you have an unobstructed view, and thanks to the large windows, plenty of natural light flows in. At the rear, you'll find the open-plan kitchen, cleverly positioned for optimal interaction with family or visitors. From the kitchen, you walk straight into the utility room, where there's space for laundry appliances and extra storage. A separate utility room is a real plus!

FIRST FLOOR – THREE BEDROOMS AND A SPACIOUS BATHROOM

The stairs lead to the landing, where you have access to three spacious bedrooms. The rooms are bright and practically laid out. The bathroom is fresh and modern and features a bathtub with shower combination, a sink with LED mirror, and a second toilet – perfect for a busy family.

SECOND FLOOR – MULTIFUNCTIONAL ATTIC ROOM

The attic is a fully-fledged attic room with plenty of possibilities. A workspace? An extra bedroom? A hobby room? Anything is possible here. Thanks to the large dormer window spanning the entire width, there's ample headroom, plenty of natural light, and a sense of space. The dormer window is prepared for a potential partition wall, making it easy to create an additional room. There's also plenty of storage space in the attic.

GARDEN, DRIVEWAY & SHED – PRACTICAL AND COMPLETE

The house has a front garden with its own driveway, as well as a gate to the garden at the front and a gate to the fire lane at the rear. There's also a covered area facing the gate to the fire lane, ideal for storing your bike in a dry and sheltered spot. This makes everything easily accessible, while the garden remains optimally practical. The west-facing garden allows you to fully enjoy the afternoon and evening sun. In the garden, you'll find a shed with electricity, perfect for bicycles, garden furniture, or as a mini workshop.
