After viewing, screening on income and reliability in various (public) registers may take place. A candidate might be asked to fully and successfully complete a screening in our screening tool. The decision to rent the property to candidates is entirely up to the lessor. If multiple candidates pass the screening successfully, the choice will be based on income, screening, and the tenant's personal situation. You have the opportunity to explain your personal situation during the screening.

NOTE: ROTSVAST represents the interests of the owner, who has a stake in renting from the available date. With a fully completed screening, ROTSVAST will immediately submit a proposal to the lessor. If a proposal has already been accepted, proposals that are fully submitted afterward will no longer be considered in the process. It is the responsibility of prospective candidates to provide a complete file as soon as possible. ROTSVAST will not actively inform candidates about the progress of the ongoing screening process of other prospective candidates. In an overheated housing market, ROTSVAST assumes that prospective candidates are aware of the importance of acting promptly.

ROTSVAST has compiled the given information with care; nevertheless, due to changes, typesetting and printing errors, or other reasons, there may be discrepancies between the above and the actual property. In such a case, the provisions in the lease agreement shall be decisive, and no rights can be derived from the information provided by ROTSVAST
